Land:

- Bev and Kathleen have been out looking at various sites and working with Dawn at the city of calgary
 - The first place was near the airport in an industrial area.
- The goal is to find nice flat land we can do things on (like sanction matches)
- It is likely that we will need to fence it.
- A long term lease would be necessary to justify spending the money for fencing it.
- Bev will check with Dawn to see if we need to use a city contractor for the fence.

Canine Good Neighbour:

- CGN was held at Bass Pro Shops on October 16th and 17th.
- An overflow CGN will be held November 6th, there are still limited spaces available.

New Business:

- Gail asked if we have the number for large scale fundraising.
 - because she has a background in it and would like to volunteer to lead the fundraising for fencing.
- Donna presented information about advertising in connect live the new humane society magazine.
 - but as we could only advertise education type events, and wouldn't be able to advertise our breeders list information: and they are \$500 for a business card sized space we have decided to not go this avenue.
- Donna has been contacted by the shawnessy petValu about doing meet the breeds on the weekends, one breed at a time.
- Gail initiated conversation about the closed door policies many vets are adopting, and how it is affecting our relationship with the veterinarians.
